

600 Series Instrument Tubing Bender

NEW

The RIDGID® 600 Series Lever Benders are specially designed for bending hard tubing such as stainless steel, steel and titanium.

A simple two-stage handle design easily switches to bend up to 180°, keeping bends in-plane and accurate.

Unique Features and Benefits

- **In-Plane:** Two-stage design allows bends from 90° to 180° without ever crossing handles; lock/unlock with a half-turn rotation of the bending handle.
- **Accurate:** Roll dies in bending carriage reduce tube flattening (ovality). Gain marks on front of form ensure properly aligned bending angles.
- **Reduced Force:** Extra-long handles for increased leverage; vise clamp block for extra stability.
- **Ergonomic:** Cushioned handle grips for improved bending ease.

Ordering Information

Cat. No.	Model No.	Capacity (O.D.)	Bend Radius	Carton Dimensions (L x W x D)	Weight	
					lbs.	kgs.
38028	603	3/16"	5/8"	15.5" x 3.25" x 2.25"	1.68	0,76
38033	604	1/4"	5/8"	15.5" x 3.25" x 2.25"	1.68	0,76
38038	605	5/16"	15/16"	21" x 3.375" x 3.5"	4.1	1,84
